CloudLine: Features That Drive Results

Our modern Voice over IP (VoIP) system is designed to eliminate high costs, boost mobility, and future-proof your business communications.

- **Complete Mobility & Professionalism:** Empower staff to use their work phone number for communications anywhere, seamlessly across all devices.
- **Simplified, Flexible Pricing:** Cut costs with an all-inclusive monthly rate per "seat".
- **Unrivaled Local Support & Service:** Get personal and timely attention from a locally owned and operated business.
- **Scalability on Demand:** New phone numbers (seats) can be added nearly instantly.
- **Door Intercom Integration:** Convert your existing intercom to be compatible with the VoIP system
-  **MS Teams Integration:** Get the full functionality you require conveniently within the Microsoft Teams interface.

Based on 25 staff seats and 7 common-area handsets:

Estimated Monthly Recurring Cost: \$474.75 (approx. \$18.99/seat)

Estimated One-Time Hardware Investment: \$1,229.00 (Handsets, Switch, ATA Device)
